HEIDI WORKMAN ENDORSES DONALD TRUMP FOR PRESIDENT

Says Former President is the Leader Ohio and the Nation Needs to 'Make America Great Again'

ROOTSTOWN, OH – Heidi Workman, a conservative activist, registered nurse, small businesswoman, wife and mother, and Republican candidate for the Ohio House 72nd District in Portage County, today endorsed former President Donald Trump for President in 2024.

“I plan on voting for Donald Trump twice in 2024 – first in the presidential primary on March 19th and again on November 5th,” said Workman. “After three years of what can only be described as the Biden disaster, we need President Trump to ‘Make America Great Again.’ Last week, the Ohio Republican Party endorsed President Trump. I’m delighted to join them in supporting Trump for President.”

Workman is challenging incumbent State Rep. Gail Pavliga – a member of the infamous “Blue-22,” the 22 Republican House members who joined with every Democrat member of the House to elect Rep. Jason Stephens as Speaker – in the GOP primary on March 19, 2024. Pavliga was censured by the Ohio Republican Party in January of this year for her vote for Stephens as House Speaker.

“Voters will make vitally important decisions next year,” said Workman. “Families have been devastated by runaway inflation and our children are being unfairly chained to an insurmountable inherited debt. Taxpayers are paying the bills for the millions of illegal immigrants who enter our country through a purposely wide-open border while veterans are thrown into the street to house and care for non-citizens. Our right to bear arms is being infringed on all fronts and the radical Diversity, Equity and Inclusion agenda is a direct attack on the unalienable truth that ‘all men are created equal.’ The list goes on and on. What we’re seeing today is a direct result of an ‘America last’ policy coming out of the Biden Administration. I believe only Donald Trump can put an end to the egregious abuse of power in D.C. and restore America’s greatness.”

“Closer to home, Portage County voters deserve to know if candidates seeking their votes for state and local office support the successful policies of former President Trump,” said Workman. “I don’t think we can afford four more years of Joe Biden. Like most Portage County voters and the Ohio GOP, I think it’s time we made America great again by re-electing President Trump.”
